A Friendly Interview with the Bebeis.

Washington, Sept. 25, 1861.

I have just learned the particulars of two interviews, which took place on Sunday last, between some members of Col. Haves' 6th Pennsylvania regiment and the Virginia 43d (rebel), stationed on opposite banks of the Potomac at Great Falls. The river is here not more than a hundred yards wide, and the pickets on both sides have occasionally hailed each other. On Sunday the rebels invited some of our men across, stating that if

gave him his overcoat to wear, and pro-posed that he should take a drink of whis-ky. "If I drink," said the soldier, "it wounded some of the must be to 'Our country.'" "Very good," said the rebel officer, "I will join you; here's to our country!" And the men on both sides of the river joined in a hearty cheer. The man remained an hour or two, and then swam back, a little nebluous from the many healths he had been obliged to

In the afternoon several of the rebels returned the vist. They were courteously entertained and exchanged buttons with our men, as souvenirs of the interview. and brothers, and we wish we had those and brothers, and we wish we had those d—d South Carolinians against us instead of you." One of the Virginia officers took off his gold sleeve buttons, having no other disposal gift at hand, and received a quarter engle in return. "Good Lord!" said he, "it's been a long time since I've seen such a piece of money." They were seen such a piece of money." They were all anxious to know the popular sentiment of Pennsyvania and the other Border States in relation to the war, and seemed a good deal depressed at learning the truth. They appeared to be tolerably well clothed and fed and did not complain of their condition.

ges of newspapers, &c., were also made, and in the act our men received a letter from a sister to one of the rebels, without the owner's knowledge. I had an oppor-tunity of reading the letter this morning, and give you an extract therefrom: "Take of coffee or a pound of sugar. Mrs.—uses honey in her tea. Send some of your money home when you get it."

It appears from other parts of the letter, that the whole country has been stripped of cloth, shoes, coffee and sugar, in order to supply the soldiers.

THE HARVEST OF DEATH .- Dr. Lyon, costly Secession fing defiantly, when a can- ty bales were received from all other places. non ball struck him to the earth, dead. A non ball struck him to the earth, dead. A second soldier instantly picked up the prostrate flag, and waved it again—a second only makes a beautiful fabric, but it takes trate flag, and waved it again—a second cannon ball shattered his body. A third soldier raised and waved the flag, and a third cannon crashed into his breast, and he fell dead. Yet the fourth time the flag raised, the soldier waved it, and turn- madness has shut out forever her best cused to climb over the fence with it into the tomer for her great staple article of prowoods. As he stood astride the fence a duce,- Wash cor. Phila. Fremont's Extravagance. The St. Louis Republican thus notices one or two charges made against General

Another instance of the utterly groundless charges against him is the statement that he has involved the Government in expenditures for the transportation of a card that the injunction against his paguns, &c, amounting to \$300,000 when per having been removed he should supthe truth is that all the express bills he port the position taken by the State of has incurred do not reach \$20,000. Just Kentucky and sustain the authority of the now, the telegraph brings us complaints from Washington of the high price paid for arms. Before Gen. Fremont left New York, he procured from the government full arms for seven thousand men; but after Manassas, those arms were diverted to Washington and have never been replaced To this day he has never received from the Government any arms except a few heavy guns. He was preparing a raw army for the field, to meet pressing emergencies, and the very exigencies of the case compelled him to procuce arms in small quantities, wherever he could find them either in this city or elsewhere. Of course he was unable purchasing in this manner, to procure as favorable terms as the government could in heavy contracts with the manufacturers; and if the safety of St. Louis, of Cairo and Paducah, were of less importance than a few dollars in the price of guns and revolvers, then these charges are just and Gen. Fremont is wrong. Even now, finding it impossible to obtain arms from the government for his cavalry, he is having lances and pikes manufuctured for them by the mechanics of St. Louis and

SARZA. We have long supposed this celebrated drug, had come to be an exploded humbug, but we are assured by those skilled in the healing art, that not the Sarsaparilla itself is to be blamed for this conclusion, but the miserable worthless preparations which contain about as much of its virtues as they do of gold dust. It is a commercial fact that almost all of the Rarsaparilla gathered in the world, is consumed in the old countries of Europe, where the science of medicine, has reached its highest perfection, and where they know the best what to employ for the mastery of disease. Hence we are glad to find that we are now to have a compound of this excellent alterative, which can be relied on, and our community will not need be assured, that anything Door. Aven makes, is worthy of their confidence. He has been for years engaged in eliminating this remedy (see adv'g cols.) designing to make it his "chef d" ouvre" which should add the crowning glory to his already enviable reputation .- Amercan Cell

Foreign Officers.

The Paris correspondent of the New York Times, in speaking of the dispute relative to Garibaldi's intention of coming to this country, says:

The extensive notoriety which has been given to this subject has had the effect at Paris of arousing all the officers of the late Garribaldian army now here, and, to a man, so far as known, they have been to aWe don't care about the war," said they, and don't want to fight, but we can't help late illustrious chief. The American Minsee Mr. Dayton, to offer their services to ister, of course, has no authority in the matter, whether Garibaldi should or should not go to the United States; but the event in itself, is not only a compliment to the Italian chief, but to the cause of the Union.

Many French Army and Navy officers also continue to visit the American Legation to obtain encouragement and advice as to the prospect of obtaining service in the army of the United States.

King Cotton Dethroned.

Whatever the issue of the present war may be, the evidence is accumulating that we shall no longer control the supply of Two of the soldiers exchanged letters cotton for the world. A gentleman of from their sweethearts. From the 6th to 12th of September, 1861, inclusive, there were received at Liverpool, England, from Boston 75 bales of cotton, Alexandria 530, St. Marcs 279, Cosina 326, Rotterdam 19, THE HARVEST OF DEATH.—Dr. Lyon, Havre (Maccio) 50, and from British In-brigade surgeon under General Lyon at the battle of Wilson Creek, was witness receipts from British India were thirtyto the following extraordinary incident:- three thousand two hundred and fifty one "A tall rebel soldier waved a large and bales, while only twelve hundred and eigh-

News.

At the recent sitting of the Grand Jury at Wheeling several secession women were indicted for perjury in testifying so as to screen traitors. Six have been arrested and held to bail by Judge Jackson in \$1,000 each for trial.

The work of confiscating rebel property in Western Virginia is going on. Recent-ly our troops seized a lot of wheat and thirty-seven head of beef cattle belonging to Secessionists, and used them as government stores. The right way to do it.

Walter N. Haldeman, chief proprietor of the Louisville Courier, who published United States, has gone to Bowling Green and joined the rebels under Gen. Buckner in the invasion of Kentucky! Haldeman richly deserves the halter.

McLean's Comdial.—As may be seen, we insert this week the advertisement of McLean's Cordial, &c. It is very well known that we are not particularly favorable to patent medicines, and as a general thing, eschew the whole of them with but little ceremony, and with these sentiments we declined inserting this advertisement until we knew what were the ingredients of the medicine, and how compounded. This we have learned, and the compound judiciously made, we recommend it as a mixture worthy of public confidence.

The above is from the St. Louis Christian Advocate, edited by the removed Rev Dr. McAnally, which speaks volumes in favor of McLean's Cordial. We say to all, try it. See advertisement in another column.
